## 12V to 72V Inverter Upgrade

Can a 12V 72V inverter be converted to each other?

A1: No,12V~72V cannot be converted to each other. You can only choose one of the input voltages, and the inverter input voltage must be consistent with the system input voltage. For example: a 72V inverter can only be used for a 72V battery. Q2: How to select the output voltage:

#### Do I need a 12V inverter?

To do this, you need to connect an inverter to the battery bank. It is important to match the battery bank voltage with an inverter that can handle that same voltage. Simply put, if you have a 12V system, you need a 12V inverter; a 48V system requires a 48V inverter. Standard Pure Sine Wave inverters simply change DC power to AC power.
