

Costa Rica Outdoor Power Supply Dimensions

Do I need a power outlet in Costa Rica?

The two most important things to note with the power outlets in Costa Rica is that they are Type A and B. If you come from a country that uses these plug types, you will not need an adapter.

What power plugs and outlets are used in Costa Rica?

In Costa Rica, there are two types of power plugs and outlets: Type A and Type B. Both types are used in airports, hotels, restaurants, etc., but they differ in terms of shape. Type A: Type A plugs have two flat prongs on either side of the plug.

What types of outlets are available in Costa Rica?

Costa Rica outlets are plug types A and B. Devices with electric Plug A can fit in both Plug A and Plug B. Devices with Plug B can ONLY fit into Plug B electrical outlets. Note: Some places we stayed in Costa Rica only had Plug A power outlets. In that case, our Plug B devices would have required an adapter.

Do I need a travel adapter in Costa Rica?

The electrical outlets and power plugs in Costa Rica are of types A &B (see images). If your country uses the same electrical outlets and power plugs, you don't need a travel adapter. However, you may still need a voltage converter if the voltage is different.

Do you need a plug adapter in Costa Rica?

You'll also need a plug adapterfor costa rica electrical sockets. Make sure your appliances can handle the local voltage to avoid damage. In Costa Rica, you'll find North American Non-Grounded (two-prong) and Grounded (three-prong) outlets. Many outlets have three holes, but some have only two.

Do device plugs work in Costa Rica?

Most device plugs will workwith the outlet types in Costa Rica. Also, the voltage in Costa Rica is the same as in North America. Please note: an adapter will be needed if your device plug has a grounding pin and you are trying to use a Type A outlet. For this reason, we always recommend traveling with a universal travel adapter.

We often receive questions from travelers preparing for their trip in Costa Rica about what kinds of plugs and adapters they need to pack. The fast answer is that our electrical plugs and voltage ...
