

CÃ te d Ivoire has grid-connected energy storage power stations

Does coqivoire have a power grid?

The grid is expected to cover 99% of the population by 2035, and 42% of the energy produced will come from renewable sources. That is reassuring news for CoqIvoire. In the wake of the post-electoral crisis of 2011, only 34% of the population had access to electricity. Today, close to 94% of Ivorians are connected to the power grid.

Why did Côte d'Ivoire privatize its electricity sector?

Côte d'Ivoire's decision to privatize a portion of its electricity sector paved the way for one of the continent's most robust energy systems that continues to expand and innovate with clean energy solutions. This feat would not have been possible without private sector involvement and complex financial packages.

Why did Côte d'Ivoire become a leading electricity exporter in West Africa?

Those tough years nevertheless provided Côte d'Ivoire with an opportunity to find a unique,innovative energy solution,paving the way for the country to develop the third largest electricity generation system on the continent and become one of the leading electricity exporters in West Africa.

Do Ivorians have access to electricity?

Whereas only 34% of Ivorians had access to electricity back in 2013 when the post-electoral crisis triggered a 40% decline, close to 94% of Ivorians are now connected to the gridand the most destitute customers benefit from a subsidized rate.
