

How much energy does Libya need in 2022?

Fossil fuels met nearly all of Libya's energy demand, with oil accounting for 57% and natural gas accounting for almost 43% in 2022. Rooftop solar projects met less than 1% of the remaining energy demand.¹⁵

Does TotalEnergies have a solar project in Libya?

In addition to its recent investment in Libya's oil and natural gas sectors, TotalEnergies intends to develop 500 MW of solar power projects in the country.⁷² Libya has also discussed solar power projects with Repsol, PowerChina, Petro Techna (Canada), and others.⁷³

Will Libya get a \$4-5 BN gas project?

58 Middle East Economic Survey, "Libya Taps Eni and Adnoc for \$4-5 bn Gas Project," December 1, 2023, "With Libya's Oil Minister Out Of The Way, NOC Could Pass Controversial NC-7 Deal," April 4, 2024; Libya Oil Monitor, "GNU "sends forces" to secure NC7 field," July 23, 2024.

Is the NOC building a refinery in southwestern Libya?

The NOC is planning to build a 30,000-b/d refinery in southwestern Libya near the Sharara oil field (Table 2). Despite the facility's small size, it would be the first refinery to serve southern Libya.

How much natural gas does Libya use?

Libya's natural gas consumption totaled 305 Bcf in 2023 and accounted for more than 70% of domestic production after 2020 (Figure 5).⁵¹ The electric power sector drives Libya's domestic natural gas demand, accounting for about 85% of Libya's domestic natural gas use in 2022.

Does Libya have a natural gas pipeline?

Libya's natural gas exports reached around 200 Bcf in 2019, the most recent high, but fell by more than half to 89 Bcf in 2023, well below the pipeline's capacity of 283 Bcf/y.⁷⁸ Libya's reduced natural gas production and higher domestic demand have hindered exports during the past few years.
