SOLAR PRO.

Mexico s Remote Solar Power System

What is solar power Mexico?

Solar Power Mexico is the first exhibition and conference specialized in the energy and solar technology segment, a business with growth rates of over 25% and an expected investment of over USD \$100 billion in renewable energy by 2031. The event will feature a seminar programme and exhibition at Poliforum Leon, Guanajuato.

Why is solar energy important in Mexico?

Without a doubt, solar energy is one of the most effective ways to bring access to power to the most remote and impoverished areas in Mexico. On the one hand, Mexico has abundant sunlight, making it an ideal location for solar energy. On average, the country receives between 10 to 14 daylight hours, one of the world's highest.

How many people benefit from iluméxico solar energy?

Today,more than 100.000 peoplebenefit from the solar energy service provided by Iluméxico. According to CSR Wire,"The company plans to increase its "ILU Centros" support network from 5 to 50 locations nationwide and strengthen alliances with both public and private institutions.
