New Energy Storage Innovation Alliance

What are the new energy innovation hubs?

The U.S. Department of Energy announced the creation of two new Energy Innovation Hubs led by DOE national laboratories across the country. One of the national hubs, the Energy Storage Research Alliance (ESRA), is led by Argonne National Laboratory and co-led by Berkeley Lab and Pacific Northwest National Laboratory.

What is the Energy Storage Research Alliance (Esra)?

The Energy Storage Research Alliance will focus on advancing battery technologyto help the U.S. achieve a clean and secure energy future Berkeley Lab's contributions to ESRA include world-leading energy storage research expertise and capabilities, such as the Advanced Light Source. Who are the Energy Innovation Hub teams?

The two teams awarded for Energy Innovation Hubs are the Energy Storage Research Alliance (ESRA) led by Argonne National Laboratory and the Aqueous Battery Consortium (ABC) led by Stanford University.

The National and Local Jointly-built New Energy Storage Innovation Center (hereinafter referred to as the Energy Storage Innovation Center) is located in Guangzhou, Guangdong Province. It ...

Energy Storage Research Alliance (ESRA), a U.S. Department of Energy (DOE) Energy Innovation Hub led by Argonne National Laboratory, brings together nearly 50 world ...

The China Energy Storage Industry Innovation Alliance was recently launched in Beijing, intending to build a platform for energy storage technology and industrial resource ...

Collaboration among national laboratories and universities is crucial to discovering new materials, accelerating technology development and commercializing new energy storage technologies.

The two Energy Innovation Hub teams are the Energy Storage Research Alliance (ESRA) led by Argonne National Laboratory and the Aqueous Battery Consortium (ABC) led ...

The establishment of the National Innovative Energy Storage Center in Baiyun, Guangzhou, was recently approved, making it the only national manufacturing innovation center in the field of ...

The consortium is a national-level new energy storage innovation platform jointly led by State Grid Corporation of China and China Southern Power Grid Co., Ltd. under the ...

The Energy Storage Center has taken the lead in establishing Guangdong New Energy Storage Industry Technology Innovation Alliance, covering over 85% of the national innovation ...
