

Open a pack battery

How do I get a battery pack?

Battery Packs can sometimes be purchased from the Traveling Cart for 1,500-2,500g and can be sold to Robin at the Carpenter's Shop. Very rarely, a Battery Pack can be dropped by breaking boxes or crates in the Skull Cavern. They may also be dropped by Iridium Bats (5% chance).

How do you connect a battery pack to a computer?

Use a screwdriver and a wire cutter to trim back the wires for the battery pack and the corresponding wire with the device. Join the wires together, matching the positive (red) and negative (black) wires together. Use small wire connectors to join the wires and apply electrician's black tape over them.

How do I assemble a AA battery pack?

Assemble the battery pack in accordance with the instructions provided. The battery pack should contain a storage compartment for you to place the AA batteries inside. Place them in the compartment. If the battery pack has a tester light, this should turn on and appear green.

How do I open the battery pack on my Roomba 500?

The Roomba 500 series and above use what appear to be a shrink-wrapped battery set. If you're certain (or curious!) that you need to open the battery pack, I would suggest starting with a hair dryer (a heat gun may generate too much heat and make the battery cells explode) and a razor blade around the glued seam.

Is battery door packaging safe for children & pets?

While it's not as quick as the battery door packaging of old, this new and secure packaging is much safer for children and pets. With this new packaging, you can rest assured that your batteries for your hearing devices will be safely inaccessible for anyone who shouldn't be getting into them!
