Sudan Solar Water Pump Inverter

Can solar water pumps be used for irrigation in Sudan?

Currently, there are many projects aiming at implementing solar water pumping systems in Sudan such as Solar for Agriculture; an ongoing project that aims at promoting the use of solar water pumps for irrigation in Sudan, by targeting 1468 solar pumps in the Northern state, the project expected to be concluded in the year 2021 [6].

What is a solar water pump inverter?

SI22 solar water pump inverter is cost-effective and economical, small and exquisite, palm-sized, greatly saving installation space and transportation costs. Solar pumping system converts solar energy directly into electric energy, and then drives motors to drive water pumps to pump water from deep wells, rivers, lakes and other water sources.

How does a solar pumping system work?

Solar pumping system converts solar energy directly into electric energy, and then drives motors to drive water pumps to pump water from deep wells, rivers, lakes and other water sources. The system consists of solar panels, solar pump inverter and water pump.

Which solar water pump inverter is best?

With modular design and IP65 protection, VEICHI SI30 solar water pump inverter is highly praised by customers. SI22 solar water pump inverter is cost-effective and economical, small and exquisite, palm-sized, greatly saving installation space and transportation costs.

What is veichi SI series solar water pump inverter?

VEICHI SI series solar water pump inverter is a high-efficiency solar water pump controllerwhich can make full use of solar energy to drive water pumps for agricultural irrigation, water supply system, fountains, ground water lowering and etc.

Which solar water pumping controller is best?

As the solar water pumping system is eco-friendly and economical, VEICHI SI series solar pumping controllers of high MPPT efficiency have been widely used in manay areas such as Africa, India, Middle East, Southeast Asia, South Asia, America and more areas.

3 Years Warrange with Pump Inverter; 25 Years warranty for solar panel Protection: Dry running protection, low frequency protection, over current protection, over voltage protection.

Requiredments: The solar water pump system project is located in Sudan, where it is not convenient to use the power grid, and agricultural irrigation requires a lot of water, so the water ...

Sudan Solar Water Pump Inverter

Product Specifications -- Product Description Sudan Solar System AC Submersible Pump Borehole Deep Well Solar Water Pump 2HP Solar Pump 10 Years Factory Manufacture ...

The Davis & Shirtliff Group is the leading supplier of water related equipment in the East African region. Founded in 1946, business activities are focused on seven principal product sectors - ...

So what kind of solar inverters can drive a water pump to reduce grid dependency, specifically in areas where traditional grid electricity is unreliable? In this article, we'll introduce ...

Despite its large basins and stores of groundwater, access to water for drinking, cleaning and irrigation is an issue in the Sudan, particularly in the River Nile and North Kordofan States.
